

DIANA ANZ-MEADOR
M.S. ADJUNCT PROFESSOR/DIVERSITY COORDINATOR
EMBRY RIDDLE AERONAUTICAL UNIVERSITY

Professor Anz-Meador has a background in clinical psychology, anthropology, and remote sensing. As president of Viking Science and Technology, Inc. from 1994 to date, she managed complex scientific and technical tasks in support of NASA Johnson Space Center for over 10 years. Currently she teaches psychology and anthropology in support of the Global Securities and Intelligence Studies program in the College of Arts and Sciences. She also serves as the Diversity Coordinator for the Embry-Riddle Prescott campus, and is dedicated to promoting scientific and technical careers for women.
